

TRANSFORM YOUR SMILE. ELEVATE YOUR CONFIDENCE.

CONSULTANTS IN DENTAL AESTHETICS

Cosmetic & Restorative Dentistry

Michael J. Landry DDS, FAGD

DIPLOMATE, AMERICAN BOARD OF AESTHETIC DENTISTRY

Choosing a dental practice isn't just about teeth. It's about trust. Comfort. Confidence. At Consultants in Dental Aesthetics, every detail is designed to create clarity, calm, and exceptional results.

With decades of advanced training and complex case experience, Dr. Michael J. Landry blends precision with aesthetic judgment — delivering enhancements that look natural, balanced, and refined.

Beautiful dentistry should never feel artificial or overdone.

It should feel like you — only elevated.

CDA represents a rare combination of elite clinical board certifications and a highly specialized “boutique” patient experience.

- Elite Professional Credentials
- “Fusion Dentistry” Approach
- Signature Patient Experience

Discover the smile that reflects who you have become.

TRANSFORM YOUR SMILE. ELEVATE YOUR CONFIDENCE.

CONSULTANTS IN DENTAL AESTHETICS

Cosmetic & Restorative Dentistry

PORCELAIN VENEERS

Where Confidence Meets Craftsmanship. Refine shape. Restore symmetry. Brighten naturally.

Under Dr. Landry's care, veneers are custom-designed to enhance — never exaggerate. The result is harmony, not perfection. Patients often describe more than a cosmetic change — they describe alignment. A smile that finally reflects how they feel inside.

FULL MOUTH RESTORATION

Rebuild Strength. Beauty. Function. Years of wear can alter comfort, bite stability, and facial support.

Through meticulous diagnosis and advanced restorative techniques, Dr. Landry rebuilds structural integrity while preserving a refined, natural aesthetic. Stronger. Healthier. Revitalized.

TMJ THERAPY WITH PRF

Modern Healing. Naturally. Jaw tension, headaches, and facial fatigue may stem from TMJ dysfunction.

Using PRF (Platelet-Rich Fibrin), Dr. Landry harnesses your body's own regenerative capacity to promote healing and reduce inflammation — without artificial additives. Restoration. Not just correction.
